Deaf Enhanced Screening Center

All deaf and hard of hearing persons will be served on an equal basis at all DMHS funded programs.

A deaf enhanced emergency screening center has specially trained personnel and resources to assist in effective communication with deaf or hard of hearing clients or family members during a psychiatric crisis. When a deaf or hard of hearing person seeks service at any emergency screening center, they are offered the choice of receiving service at their local facility or being transferred to an enhanced center.

Atlantic City Medical Center - PIP

Designated Screening Centers

Continued from previous page

Screening center – A public or private ambulatory care service designated by the Commissioner, which provides mental health services including assessment, emergency and referral services to mentally ill persons in a specified geographical area. Screening is the process by which it is ascertained that the individual being considered for commitment meets the standards for both mental illness and dangerousness as defined in P.L. 1987,c.116 (N.J.S.A. 30.4-27.1 et seq.) and that all stabilization options have been explored or exhausted.

Emergency service is the provision of service to people in crisis. It includes mental health and social service provision or procurement and advocacy. Emergency services offer immediate crisis intervention services and service procurement to relieve the client's distress and to help maintain or recover his or her level of functioning. Emphasis is on stabilization, so that the client can actively participate in needs assessment and service planning. It is affiliated with a Designated Screening Center.

Program of Assertive Community Treatment

Comprehensive, integrated rehabilitation, treatment and support services to those individuals most challenged by the need to cope with serious and persistent mental illness, as evidenced by repeated hospitalizations and to those individuals identified as at serious risk for psychiatric hospitalization. PACT, provided in vivo by a multi-disciplinary service delivery team, is the most intensive program element in the ambulatory continuum of community mental health care. Services to an individual may vary in type and intensity, but treatment has no predetermined end

Residential Services

A program for mentally ill adults in community residences owned or leased by the provider or through service agreements providing support and encouragement in the development of life skills required to sustain successful living within the community. Clients live in the most normalized, least restrictive environment possible to promote individual growth and safety. Programming focuses on empowering the client's use of generic community supports to meet physical, psychological and social needs to promote an improved quality of life and emotional well being.
